

STOP Carpal Tunnel BEFORE it STOPS YOU!

Do you experience numbness or tingling in your wrists or fingers? Are you awakened in the middle of the night because of pain sensations in your hands, wrists and forearms?

Those can be signs of nerve compression...and symptoms of carpal tunnel syndrome!

In fact, **a neck injury, such as whiplash, can aggravate carpal tunnel syndrome!**

It's easy to see why operating on your wrist *won't* correct the **underlying problem** when it starts in the neck!

Chiropractic care addresses the underlying cause of carpal tunnel syndrome so you get relief—*naturally!*

You Could Be At Risk!

You may experience an occasional twinge and think nothing of it.

Left untreated, carpal tunnel syndrome can become disabling and costly to treat through traditional methods.

In fact, *Blue Cross* recently spent an average of \$20,000 on claims for carpal tunnel syndrome. One severe claim can cost as much as \$100,000!

Chiropractic care is a PROVEN safe and effective alternative to drugs and surgery.

We can help *relieve* nerve pressure at the source and *reduce* inflammation with specifically targeted spinal adjustments.

Did you know...

As many as 90% of those diagnosed with carpal tunnel syndrome also have a compression of the cervical spine.

This creates pressure on the median nerve that runs from your neck to your hand.
